

Claims

- 1) The method of using sorbic acid as growth-stabilizing addition to feedstuffs, which method comprises adding sorbic acid to feedstuffs.
- 2) The method as claimed in claim 1, wherein the sorbic acid is employed in concentrations of from >0 to <1.2% by weight (based on the feedstuff).
- 3) The method as claimed in claim 1, wherein the concentration of sorbic acid is in the range from 0.5 to 1.0% by weight (based on the feedstuff).
- 4) The method as claimed in claim 1 in pig rearing.
- 5) The method as claimed in claim 1 in cattle rearing.
- 6) The method as claimed in claim 1 in lamb rearing.
- 7) The method as claimed in claim 1 in poultry rearing.
- 8) The method as claimed in claim 1 in rabbit rearing.
